

Evidence-Based Care-Coaching Program

Helping professionals deliver cost-effective assistance and support to individuals with chronic conditions and family caregivers by telephone and email.

OUTCOMES INCLUDE
Improved care, reduced unmet needs, less stress, and fewer ER and hospital visits.

Benjamin Rose Institute on Aging provides licensing, training and technical support to organizations offering **BRI Care Consultation**. Alternatively, your organization can contract with Benjamin Rose, and we can deliver the program to your clients for you.

The secure online service-delivery system features...

- Personalized assessment and reassessment
- Action steps to help guide clients with addressing their needs
- Standardized protocols ensuring quality service
- Built-in fidelity monitoring tools and reports
